ABOUT ME

Full-stack developer passionate about building digital products that solve real-world problems. I turn ideas into functional, user-friendly experiences, from designing intuitive interfaces to developing the systems that power them. Driven by curiosity, problem-solving, and the challenge of building things from the ground up.

EXPERIENCE

LaviScanIQ, *Lead Developer (Contractor)* 01/2026 – Present | Kitchener, ON

- Designed and developed a full-stack SaaS platform using Next.js, React, JavaScript, and Firebase to digitize washroom cleaning records.
- Implemented QR code scanning and GPS-based verification to improve cleaning accountability and validate submissions within a radius.
- Integrated Firebase Authentication and Stripe to provide secure user access, cleaner management, and subscription-based payments.
- Built dashboards for managing buildings, spaces, cleaning staff, and cleaning history.

Clean Connection, *Full Stack Developer (Contractor)* 03/2023 – 11/2025

- Dealing with web development and maintenance.
- Addressing technical challenges related to integration and security.
- Developing and implementing solutions to enhance user experience and privacy.
- Integrating Stripe for subscription-based payments to ensure secure and transparent transactions.
- Creating a secure in-app messaging system to facilitate direct communication between employers and cleaners, enhancing privacy and accountability.

Generation Chos3n, *Director of Organizational Managing* 10/2023 – 04/2025 | Toronto, ON

- Overseeing and ensuring the success of Anchees, A.I.T.s, and Anchors.
- Managing grant reconciliation and workplan updates for both the Executive Director(s) and staff.
- Developing and maintaining adherence to codes of conduct and other policy documents related to workplace safety and cultural conditions.

Atreo Media, *Lead Web Developer (Remote)* 07/2021 – 02/2022 | Guelph, ON

- Discussing site and app requirements with clients to produce actionable development plans.
- Multitasking across multiple functions and roles to meet deadlines and organizational expectations.
- Adhering to AODA compliance while designing sites.
- Overseeing technical issues and troubleshooting requests to resolve user problems.

Atreo Media, *Front End Web Developer (Remote)* 09/2020 – 06/2021 | Guelph, ON

- Assembling and addressing technical and design requirements, integrating user-facing and front-end elements to maintain web presence effectiveness.
- Translating UX and business requirements into elegant code solutions.
- Coding using React, HTML, CSS, and JavaScript to develop features for both mobile, tablet, and desktop platforms.
